

How to Install(Upgrade) 3rd Party Applications.

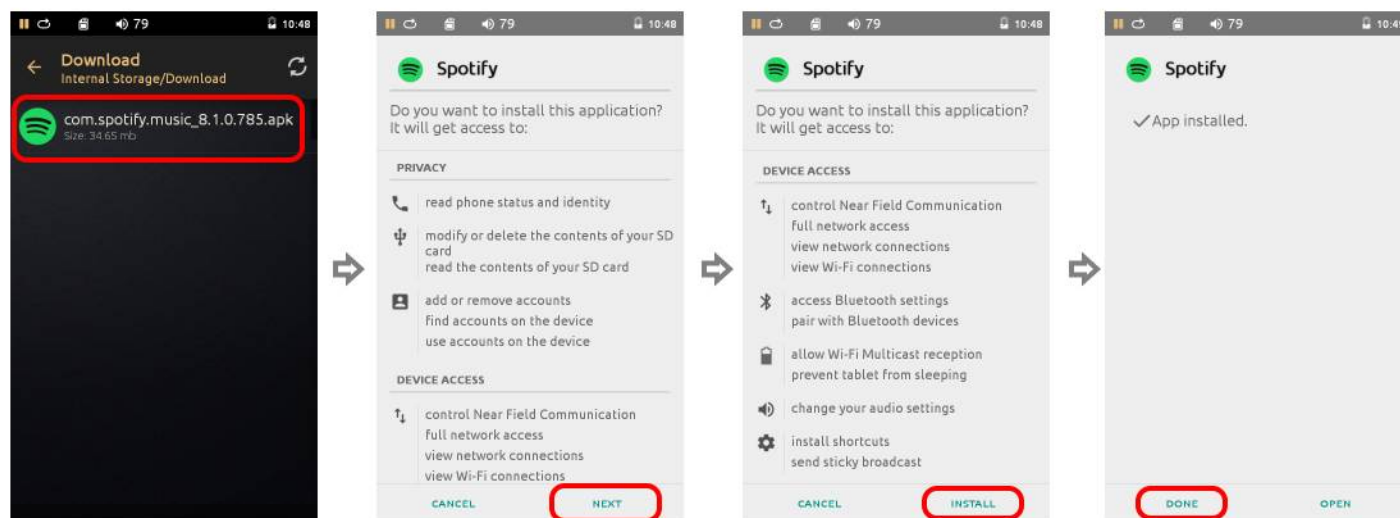

We use a customized Android OS, and It is difficult to fully support various 3rd party applications. Depending on applications, some functions may be restricted. We do not give any guarantees about the performance of 3rd party applications

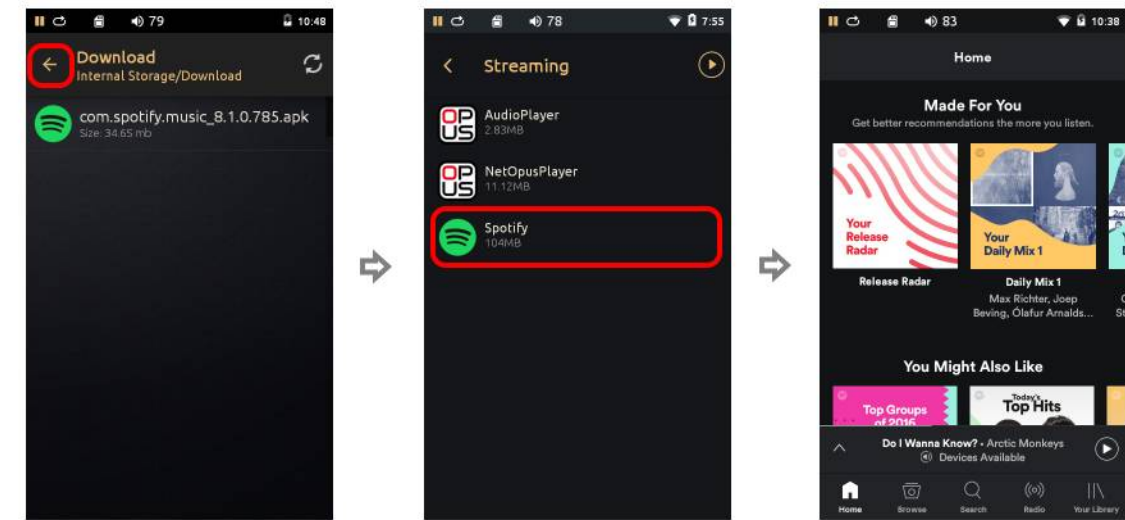

1. After connecting OPUS player into PC with bundled USB cable, copy the APK file you want to install into the "Internal storage/Download" folder on the Opus player's internal storage.
2. When the file copy is complete, disconnect the USB cable.
3. Go to "Settings" -> "Streaming" menu screen. Press the "+" button shown at the top right of the detailed information screen.

4. A list of APK files existing in the "Internal storage/Download" folder is displayed.
5. Select the APK file you want to install and proceed with the Installation procedure.
6. Press "NEXT" > "INSTALL" > "DONE" (Please, do not select "OPEN")

7. Press the upper left button to return to the setting streaming screen.
8. The installed APK is displayed in the streaming list.

How to Uninstall 3rd Party Applications.

1. Go to "Settings" -> "Streaming" menu screen. Click (press and hold for few seconds) on the application which you want to uninstall.
2. In "App info" screen, Click on "uninstall".
